To:
Hiring Manager, Keysight Technologies
Bayan Lepas Free Industrial Zone, 11900
Penang, Malaysia.

JOB REFERENCE: IT INTERNSHIP

Dear Hiring Manager,

I am writing this letter in response to the advertised internship position at Keysight Technologies. I am a final year student pursuing a degree in Computer Science at Universiti Tunku Abdul Rahman (UTAR) and I am keen on utilizing my skills in programming, software development and particularly problem solving in an organization of Keysight's youthful nature.

I have enhanced my proficiency in several programming languages such as python, C++ ,Java, and JavaScript, and I familiar with the framework such as Node.js and Express. js. The projects I have worked on more recently include a Stock Management System in Java and a calculator for Carbon Emission in Node. js, Express. js which are functional solutions to real issues and awarded most popular project in HackAttack 2024. Besides, I have developed skills in managing databases in SQL, algorithms as well as programming in web development.

When I worked for Jy.Dream as an E-commerce Coordinator, I was able to enhance and improve on analytical skills in managing inventories, problem solving skills as well as the ability to pay much attention to details and good communication skills.

Please consider my application. I look forward to the opportunity to further discuss how I can contribute to Keysight Technologies. Feel free to reach me via email at ongyisheng0309@gmail.com or by phone at +6011-11998088.Thank You.

Sincerely,
Ong Yi Sheng
UTAR Final Year Student
Bachelor of Computer Science (Honours)
